

SERVICE CHART

For SLD Diagnosis

A. This Service Chart refers to the supply for the Diagnosis for Specific Learning Disorders (DSA) according to the current legislation. The diagnoses provided are recognized by regional and extra-regional educational institutions thanks to the "Accreditation" of the Marche Region according to Law n. 21/2020, regarding the Accreditation for Healthcare Facilities. This provides the most recent scientific guidelines and also the Quality Service standards required.

B. The annual volume of diagnoses is around 5 (plus the diagnosed that produce other types of non-DSA profiles).

C. The collection of the reports is described in the following paragraphs.
